konstrux meeting

VALO®

xtendable and flexible

konstrux meeting tables provide a solution for spaces that need to accommodate a variety of changing needs. These modular tables with removable table leaves and shared legs include the KAP connecting system which allows for a reduced footprint and less parts. This makes konstrux a cost-effective and environmentally friendly furnishing for all of your dynamic spaces. Through its versatility and flexibility, konstrux meeting tables can be configured to ensure success.

These versatile konstrux meeting tables can be arranged quickly to suit changing needs with smaller tables available on casters to ease mobility.

Freestanding storage is available in a wide variety of options including cabinets and shelves. Using these units, your meeting area will remain organized and conducive for conducting business. With the konstrux meeting table system, you will enable areas that will increase collaboration, enhance creativity, promote innovation and lead to success.
