VE 5100-100

The new standard in today's high density stacking chair

Vive is the versatile solution for environments that require high-density, moveable seating which is attractive and affordable in price. This stacking chair features a durable metal frame, strong contoured poly seat and back, built-in die cut handle, and optional ganging connectors to provide you with functional furnishings that can be set-up, moved, or stacked quickly and easily.

In addition, Vive offers the option of an upholstered seat and back to enhance comfort, and a specially designed cart for accessible storage.

Ganging Connectors

Keep your chairs in line and comfortably spaced with ganging connectors that attach to each Vive.

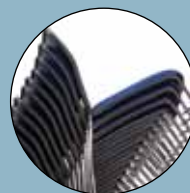

Optional Upholstered Seat and Back Pads

Soft and plush, the upholstered seat provides for comfortable seating over long periods of time. The waterfall front edge of the seat helps reduce stress to your legs.

Strong Contoured Seat and Back

Durable sculpted seat and back are supported by a polished metal frame for longer seating. The molded back has a built-in die cut handle for easy transport.

High Density Stacking Capacity

Vive stacks 8 high for convenient storage which allows for quick setup and mobility. Stacks 24 high on easy move cart.

Optional Easy Move Cart

Allows for quick movement and ease of storage with a specially designed cart, available as an option, Easy Move Cart holds Vive 24 high.
