

Valo Has Achieved level®

All Valo products have achieved level, BIFMA's sustainability certification program for furniture. This includes a variety of product offerings including individual seating and table programs. Developed by BIFMA, level is a voluntary certification program in which third-party auditors measure a product and its producer against the ANSI/BIFMA e3 Furniture Sustainability Standard. The level program was created to provide the most comprehensive, unbiased and transparent mean of evaluating and communicating the environmental and social impacts of commercial furniture products. The level mark demonstrates that the product, the manufacturing facility, and the company responsible for the product brand, have all met the requirements for certification.

For a list of all Valo level brand products, visit www.levelcertified.org

About BIFMA:

BIFMA is the not-for-profit trade association for business and institutional furniture manufacturers. Since 1973, BIFMA has been the voice of the commercial furniture industry.

All
Valo products have
received BIFMA level
Certification.

"Achieving level® attests to our commitment to sustainability and to our dedication in continually updating processes to become even more environmentally and socially responsible. With spaces within an open office constantly changing, it is imperative that we reach these standards while providing furniture solutions for Dynamic Spaces that promote collaboration, inspire innovation, and increase productivity all within a reduced footprint". – Stuart Rogers-Brown, C.O.O., Dauphin North America.
