Order Changes  
 Our acknowledgment of accepted order takes precedence over buyer's purchase order. Any error or discrepancy on acknowledgment must be reported to Dauphin in writing within three (3) working days of acknowledgment date. Changes to order at customer's request may result in additional charges based on costs incurred by Dauphin. Once production has started, changes will not be accepted.

Restocking terms: The restocking charge will not exceed 20% of the net cost for items returned for other than warranty reasons. Agencies must notify contractor for authorization prior to returning items.

Cancellation Policy: No cost prior to production. After production has begun, only actual costs incurred will be billed to customer if merchandise cannot be resold within a reasonable length of time (6 months).

Lifetime Warranty: Dauphin North America warrants its Dauphin seating products to be free from defects in material and workmanship for as long as the original customer owns and uses the product under normal, single-shift office conditions. If a product is defective, and if written notice of the defect is given to Dauphin North America within the applicable warranty period, Dauphin at its option will either repair or replace the defective part or product with a comparable component or product. The Lifetime

Warranty applies to all products, except as noted below:

Warranty	Period
Seating Mechanism	10 Years
Stacking and side chairs	10 Years
Foam, Dauphin fabrics and other upholstery materials	3 Years
Moving parts, such as backrest cylinders and adjustable arms	5 Years

This warranty does not apply to defects from normal wear and tear, accidents, negligence, abuse, shipment, handling, storage, or environmental conditions, nor does it apply to "Customer's Own Materials". Any modifications to our products made by the purchaser, purchaser's employees or agents, voids this warranty.

This warranty extends to all products shipped after August 1, 1994 which are used for normal office purposes and single shift service. All claims under this warranty must be made by the original purchaser within 30 days of alleged defect.

This warranty is the customer's sole remedy for product defect. No other expressed or implied warranty is provided. Dauphin North America is not responsible for any consequential, economic or incidental damages arising from any product defect.

konstrux offers a system which is easily assembled and re-configured thereby allowing the user to keep their working, conference and training environment relevant to their specific task. While power is not fitted standard on the conference tables, konstrux offers flexible power and data capabilities from working across to training and conference.

A round configuration for promoting discussion and interchanging of ideas

konstrux offers a system which is easily assembled and re-configured thereby allowing the user to keep their working, conference and training environment relevant to their specific task. While power is not fitted standard on the conference tables, konstrux offers flexible power and data capabilities from working across to training and conference.

A rectangular table with inserted extend-a-leaf ensures maximum space utilization of a typical rectangular room

A racetrack table with 2 standard end tables allows for more seating than a simple round table and allows for expansion should it be needed.
